

ENVIRONMENTAL DISCLOSURE LABEL

NORDIC ENERGY SERVICES, LLC

Electric suppliers and distribution companies are required to provide customers with a disclosure label. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier.

Generation Price Average price per kWh at different levels of use.*	Average Usage/Month Residential	250 kwh	500 kwh	1,000 kwh	2,000 kwh	Average Usage/Month Commercial	1,000 kwh	10,000 kwh	20,000 kwh	40,000 kwh

Labor Information	<ul style="list-style-type: none"> • Less than 1% of the electricity associated with Nordic Energy came from power sources that used replacement labor during disputes between 7/1/17 -6/30/18 . • 30% of the electricity associated with Nordic Energy came from power sources with union contracts with their employees 7/1/17 -6/30/18 . 																																					

NOTES:

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information for the NEPOOL Generation Information System. Nordic Energy procures all of its electricity supply through system power contracts from the system, not from specific generating units.

2. See reverse side and your Terms of Service for further information on this label. For additional information, you may contact Nordic Energy Services, LLC at 1-877-808-1022, the Massachusetts Department of Public Utilities Consumer Division at 1-877-866-5066, www.mass.gov/dpu, or the Massachusetts Division of Energy Resources, www.mass.gov/doer.
