ENVIRONMENTAL DISCLOSURE LABEL NORDIC ENERGY SERVICES, LLC

Electric suppliers and distribution companies are required to provide customers with a disclosure label. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier.

average, and to the emission rates of a new generating unit.	Lower Emissions						Higher Emissions			
Labor Information	 Less than 1% of the electricity associated with Nordic Energy came from power sources that used replacement labor during disputes between 01/1/18 - 12/31/18. 22% of the electricity associated with Nordic Energy came from power sources with union contracts with their employees 01/1/18 - 12/31/18. 									

- above information is based on the most recently available information for the NEPOOL Generation Information System. Nordic Energy procures all of its electricity supply through system power contracts from the system, not from specific generating units.
